

CATALYST

Education & Impact Consulting

STRATEGY • DEVELOPMENT • IMPACT

Great education[→] doesn't happen by accident.

It takes vision. Expertise. Evidence.
And the confidence to do things differently.

Catalyst Education & Impact Consulting helps organisations turn educational ambitions into purposeful programmes, stronger learning experiences and practical improvements.

EDUCATIONAL STRATEGY • PROGRAMME DEVELOPMENT • RESEARCH AND IMPACT

CATALYST / 01

Clarity for your next steps.

Whether you are reviewing current provision or developing something new, Catalyst helps you make informed decisions and put them into practice.

Questions we help you address

Where are the strengths and gaps in our provision? How should our curriculum or programme develop? What support do our educators need? How can we improve engagement and understand what works?

Who we work with

Schools and educational institutions; charities and NGOs; conservation and environmental education organisations; youth development initiatives; and community-based learning programmes.

Support that fits your context

Our consultancy reflects your objectives, learners, available resources and intended outcomes. We combine educational expertise with recommendations that are realistic to implement.

*Every organisation works within its own context.
We provide support that is realistic, practical
and tailored to your objectives and resources.*

Review design and direction

01

Review of existing educational provision

A structured review of current provision, identifying strengths, gaps and priorities for improvement.

02

Curriculum design and development

Design, review and strengthen curricula, including learning objectives, progression, content, teaching approaches and implementation planning.

03

Educational programme development

Establish new initiatives, improve existing provision and develop structured programmes aligned with your mission, learners and resources.

04

Educational strategy and leadership

Strategic advice on educational priorities, programme quality, organisational development and the effective delivery of learning initiatives.

People, evidence and inclusion

05

Teacher and educator development

Professional development, mentoring and practical guidance to strengthen teaching and learning.

06

Research evaluation and impact

Understand the effectiveness of educational work through qualitative research, programme reviews, evaluation planning and evidence-informed recommendations.

07

Inclusive education and learner engagement

Develop accessible, inclusive learning environments and programmes that respond to diverse learners' needs and experiences.

The Catalyst approach

Effective education begins with understanding people, purpose and context. We work collaboratively to develop purposeful, inclusive and sustainable learning experiences.

Frankie Frangeskou

Founder and Education Consultant

Frankie is a UK-qualified education professional with 16 years' experience across primary, secondary and sixth-form education.

As a former Director of Studies, Frankie has led educational provision, developed programmes, managed teaching teams and supported improvements in educational quality and learner outcomes.

Expertise spans curriculum and programme development, teacher recruitment and development, academic quality assurance and student engagement.

Master of Education (MEd)

Educational Leadership & School Improvement
University of Cambridge

PhD in Education (in progress)

University of Cambridge
Current doctoral research explores equality, diversity and inclusion in educational settings and the perspectives of school leaders.

Your priorities. A practical plan. Measurable progress.

Whether you are strengthening existing provision, developing a new initiative or exploring ways to improve educational outcomes, we can help turn your vision into practice.

Our consultancy process

01

Understand

We begin by exploring your priorities, learners, resources and the outcomes you want to achieve.

02

Agree

We define the scope of work, practical deliverables, timelines and clear reporting arrangements.

03

Develop

We work collaboratively on evidence-informed recommendations and resources you can put into practice.

Engagement options

Short-term projects

Curriculum reviews

Programme development

Ongoing advisory support
